Practical-2

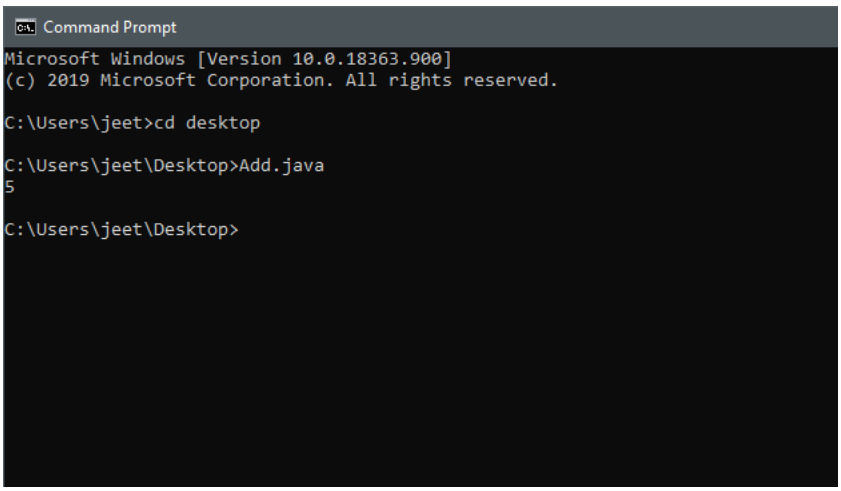
AIM: Write a program to add two numbers using class and object.

PROGRAM:

Input:

```
class Add
{
public static void main(String[] arg)
{
        int a=2,b=3;
        Sum result =new Sum(a,b);
        System.out.println(result.res);
}
}
class Sum
{
        int res=0;
        Sum(int x,int y)
        {
         res=x+y;
        }
}
```

OUTPUT:



Command Prompt
Microsoft Windows [Version 10.0.18363.900]
